Durham, N. H., October 27, 1920.

THE POINT SYSTEM.

The new point system which has been adopted by the women students of the college is undoubtedly a progressive step in student life here at New Hampshire. The new system will accomplish what no amount of arguing or explaining could do—that it will limit student activity.

Many of the women students on the campus have been active in countless branches of activity which though essential to college life, to be successful to the greatest degree, should be distributed among a greater number of students. The new point system will cause the student activities to be more evenly distributed and will in the long run prove to be beneficial to all student organizations and to the students themselves.

It would, in fact, be a plan worthy of adoption by the men and it would seem that this question might be well considered by the Student Council at its first meeting. While activities are necessary they become an evil when they become centered on any one person or in any one group and it is to be hoped that the men will "follow the leaders" and adopt some system of limiting student activities.

THE STRAW VOTE.

Last Wednesday there was a straw vote conducted here at New Hampshire solely for the purpose of determining the general prevailing sentiment of the men and the women of the student body and the faculty. The vote pertained merely to the head of each party, but in the selection of a head there is evidenced nothing but the endorsement of a platform to which the chief executive is pledged to carry out. Perhaps there will not be an infallible adherence to each plank in the platform, but in general the statement of the views and ideals of the public must be one that has been very carefully conceived before it has been carried out.

Perhaps the result of this vote that gave the overwhelming advantage to Harding shows nothing except that the college is Republican, but the result of the vote of last winter that was taken on the question of ratification of the Peace Treaty of Versailles seems to be rather intimately related with the present issue.

The balloting on the Peace Treaty showed that the general trend of desire was for the adoption of the treaty with the reservations made in the Senate. Judging matters from this basis it would seem that the only way to obtain such an end and to get a world-wide peace between nations, with America occupying her proper place with the nations, is to inaugurate an executive head for this country who is in sympathy with the causes that made these reservations possible.

Since that vote of last winter was taken, about one-fourth of the students have gone by graduation or for other reasons best known to themselves. Of the remaining members, however, it is hardly possible that a great number have changed their minds and reasons for voting as they did. The result of this vote can mean but one thing then, and that is a hearty co-operation with Harding and Coolidge, and the principles for which they stand.

On the other hand it would seem almost paradoxical that men would wish to support a platform that means hiding behind a time honored act, and the evident burning desire of the Democratic party to go to Ireland with pick and shovel, and wade into the country with the intent of settling a fight that has not yet been determined. Northern Ireland is against Southern Ireland on general principles, and because it is a Hibernian nature to fight for something, and when there is nothing to fight for they fight for nothing, forthwith. The participation of this country in such affairs would seem to be hiding behind the Monroe Doctrine, as a small boy hides behind his own front yard fence. It is then, for such reasons as these stated above, that we believe the result of this straw vote was based on firm convictions that the men that have been favored are the one that will carry out their desires and beliefs.

STUDENT COUNCIL IS ORGANIZED

Student Committee Submits Report at Convocation

ELECTION TODAY

Constitution as Accepted Paves Way to Student Government — Powers and Duties are Defined—Non-Fraternity Faction Given Representation

On Wednesday, Oct. 20, at convocation, the committee appointed some time ago by the student body, for the purpose of forming a student council, gave its report and submitted a constitution for adoption. The presentation was announced in a short explanatory speech by Professor Whoriskey. It was then read to the student body by Otto Helff, chairman of the committee. The articles were discussed separately and voted upon, and the constitution was accepted in full, with the exception of Article 6, which was laid on the table for one week.

The constitution was formulated by a committee appointed by the student body. This committee consisted of one man from each fraternity, an equal number of non-fraternity men, one woman from each sorority, an equal number of non-sorority women, and a member of the faculty. The committee appointed from its number a second committee, consisting of one fraternity man, one non-fraternity man, one sorority woman, one non-sorority woman, to act with the chair in drawing up a constitution. The committee, at a meeting on Oct. 13, presented the constitution to the entire committee. It was altered in certain minor respects, and finally accepted.

NOMINATIONS MADE

Immediately after the acceptance of the constitution by the student body, Section 2, that relating to the election of the president of the Student Council, was put into actual practice. Three candidates for the office were nominated; the nominees are Otto Helff, William Haggerty, and Stephen Boomer. The names of candidates for the remainder of the council will be posted on the bulletin boards.

The constitution, as it was presented to the student body, follows in full:

Constitution of the Student Council of New Hampshire State College.

Art. 1. Name. The organization shall be known as "Student Council."

Art. 2. Time of Meeting. A meeting shall be held once every two weeks unless there is no business to come before the council. Additional meetings may be held at the discretion of the President of the council or at the request of five members.

Art. 3. Membership. The council shall consist of a general representative body and a President. Membership shall be limited to seniors and juniors. The term of office for all members shall be one year and shall expire at the close of the collegiate year.

Sec. 1. General Representative Body. The general representative body shall be composed of the following members: One member from each sorority; one member from each fraternity; a number of members from the non-sorority women equalling the total number of sorority members; a number of members from the non-fraternity men equalling the total number of fraternity members.

Sec. 2. President. The President of the Student Council shall be elected from the student body.

Art. 4. Election of Members:

Sec. 1. General Representative Body. Each fraternity and sorority shall elect its member to the council. The non-fraternity men, acting as a body, and the non-fraternity women, acting as a body, shall elect their respective representatives.

Sec. 2. President. The President of the council shall be a Senior elected by secret ballot by the student body at the annual Athletic Association election.

Art. 5. Time of Election. Election of members for the following collegiate year shall take place not later than one month before the close of the current collegiate year. The President of the Student Council shall be given the names of the new representatives elected.

Art. 6. Duties and Powers:

Sec. 1. Contests. The Student Council shall have jurisdiction over all class contests.

Sec. 2. Arbitrations. The Student Council shall be arbiter in all class affairs and in all other affairs affecting the student body.

Sec. 3. Quorum. In order to hold a meeting at least 75 per cent. of the members must be present.

Sec. 4. Voting. A majority vote of the members present shall be necessary to pass upon business brought before the council.

Art. 7. Officers of the Council:

Sec. 1. President. A President shall be elected as provided for in Art. 3, Sec. 2 and Art. 4, Sec. 2.

Sec. 2. Secretary. The Student Council shall elect one of its members to act as a secretary.

Sec. 3. Vice-President. The Student Council shall elect one of its members to act as a Vice-President.

Art. 8. Amendments. Amendments may be made to this constitution under the following rules:

1. The proposed amendment must

be posted conspicuously, or published in the "New Hampshire" at least one week before being voted upon.

2. A quorum of 50 per cent. of the student body shall be required before a vote may be taken upon an amendment.

3. A two-thirds vote of those present shall be required to make the amendment constitutional.

GIRLS TO HAVE ATHLETIC SCHEDULE

Arrange Hockey Games with Tilton and Colby—to Use Football Field for Local Contests—Interest Keen

Following the selection of the girls for the hockey teams, which will probably be done this week, inter-class games are to be arranged. There are more than seventy-five candidates for the three teams.

Plans are now being formed to select a varsity team from all the candidates out to meet the Tilton seminary girls, in Durham, early in November. A game with the Colby academy girls will also be played here. The date for neither game has been decided upon because of the absence of Miss Helen Bartlett, director of women's athletics, who is spending a few days in Springfield, Mass. During her absence Dorothy Flanders, '21, president of the girls' athletic association, Kathryn Aldrich, '21, and Edith Morrill, '21, are coaching the teams. The New Hampshire girls, who are to meet the Colby girls, will be chosen from the freshman and sophomore classes since the visitors are "first year" girls.

Coach Cowell has offered the girls the use of the football field for these two games.

FIGHT ON."

George M. Malouf, '24.

Fight, fight to conquer

Fight, fight to win;

Fight O men immortal

Fight to conquer sin.

Fight with all thy bravery

Fight with all thy care;

Fight with all thy virtue

Fight on for one who's fair.

Fight, fight on, oh sinners

With everlasting stress

Fight on for the day is coming,

When you will meet success.

Fight on, Oh joyous people

Fight on and ever smile;

For life is what you make it

And forever it's worth while.

DEMOCRATS HOLD RALLY ON SATURDAY

Charles E. Tilton and Raymond B. Stevens Address Small Audience on Campaign Issues—Candidate for Governor Favors Expansion of College

Charles E. Tilton, of Tilton, Democratic candidate for governor and firm friend of the college, and Raymond B. Stevens of Landaff, Democratic candidate for United States Senator, spoke at the Democratic rally held at the flagpole Saturday noon. The speakers were introduced by Edson M. Bailey, '22, president of the college Cox and Roosevelt Club.

Mr. Tilton said in substance that the farming industry is the most important, as well as the most neglected industry, in New Hampshire. Education and an adequate Bureau of Markets are the only remedies for the abandoned farms of New Hampshire. In support of these views Mr. Tilton favors an appropriation to New Hampshire College sufficient to meet the needs of the institution in the work which it is doing toward educating the youth of the state and the enlarging of the present Bureau of Markets.

STEVENS TALKS

Mr. Stevens opened his talk by saying that he, too, wished to boost the farming industry. Farming is the most healthful, interesting, and independent occupation opened to young men. It is the great state and national problem to make farming pay.

Mr. Stevens said concerning the League of Nations: All controversy comes because of Article X. If, however, people would read it and interpret it as it is, instead of as they think it is, they would find that under Article X there is nothing which can force the United States to participate in a war which does not concern her.

Following the rally President Hetzel entertained Mr. Tilton, Mr. Stevens, Samuel Craig and Ralph D. Paine of Durham, and Edson M. Bailey, '22, at dinner in his private dining rooms at the Commons.

CONSTANTINA COUTCHOUKAS SPEAKS ON AMERICANIZATION.

Miss Constantina Coutchoukas, '22, of Manchester, N. H., spoke on "Americanization—From the Foreigner's Point of View" at the New Hampshire Young People's Organization, Sunday, October 24.

Miss Coutchoukas, whose birth and traditions are Greek, but whose education is American, was able to interpret the mutual misunderstandings of foreign and native born Americans from the level of personal experience. Misunderstanding of each other's motives, she says, is the chief cause of antagonism on the part of the foreigner, and contempt on the part of the American, whose past relations with the alien have been characterized by a lamentable lack of tact and consideration.

DURHAM HEARS DR. S. A. ELIOT

Distinguished Leader Preaches at Local Church on Sunday

RECENTLY VISITED EUROPE

Gives Views on Foreign Relations at Dinner Party—Defines America's Attitude as "Cruel"—"Europe a Volcano"

Ministering as she does to various religious groups in the community, Durham Church has a custom of inviting to her pulpit from time to time, distinguished leaders from the several denominations. Last spring it was the good fortune of Durham people to hear the Rt. Rev. Edward M. Parker, Episcopal Bishop of New Hampshire, who preached in the Church in Durham. Last week another noted Christian statesman was the guest of Durham Church, the Rev. Samuel A. Eliot, D. D., of Boston, President of the American Unitarian Association. Dr. Eliot is known widely in this country as a college preacher, author, member of the Commission on Indian Affairs, etc. He has just returned from Europe, where he went as a delegate to the recent conferences at Geneva held by the World Alliance for the Promoting of International Goodwill.

Dr. Eliot arrived in Durham Saturday night and went at once to the Commons where a little dinner had been arranged in his honor. Some of the guests were: Pres. R. D. Hetzel, Pres. W. J. Kerr from Oregon, Dean C. H. Pettie, Dean Calvin Crouch, Dean A. N. French, Dr. A. E. Grant, Director J. C. Kendall, Rev. Mr. Vaughan Dabney, Lynde Sullivan, Jas. S. Chamberlain and Ralph D. Paine.

During the conversation after dinner Dr. Eliot was asked concerning the condition of Europe just now. In reply Dr. Eliot said in part: "Europe is sitting on a volcano. National suspicion and hatred were never more pronounced. Germany has not yet repented of her sins. Holland is the only rich nation for she traded both ways during the war." Asked what was the feeling of Europe toward America Dr. Eliot replied: "The only word I can think of just now to describe America's attitude with reference to the European situation is 'cruel.' America is unthinkingly cruel as regards the needs and sorrows of Europe. The people there are outwardly polite, of course, but they are quite disappointed and mystified about our conduct in international relations."

PRES. KERR LAUDS DR. HETZEL

Pres. Kerr of Oregon talked informally answering questions concerning the work and function of the American Land Grant College. "New Hampshire has a great future," said Dr. Kerr, "and you have chosen the right man to lead the way. We in Oregon hated to lose Pres. Hetzel, but we rejoice that you are the gainers." Pres. Kerr then went on to speak of the great financial assistance rendered the State Colleges by Western states and urged the people of New Hampshire to plan wisely for the future expansion of New Hampshire College by appropriating large amounts to carry on the work. "One of the best things in Durham," said Dr. Kerr in conclusion, "is your Community Church. I haven't seen anything just like it. It deserves the hearty support of everybody."

KNOWLEDGE ENDS IN WONDER

Dr. Eliot preached Sunday morning on the text, "He endured as seeing Him who is invisible." He said in part: "There are two kinds of people in the world, those who see facts and those who interpret facts. The latter are the truly educated persons. For education consists in turning sight into insight. Knowledge begins in wonder; it also ends in wonder. Science has rendered great service to humanity, but science can never banish imagination, emotion, feeling and aspiration from the race. The great enduring things are the invisible realities of the spirit. What is the flag? Bits of colored bunting? Yes, plus the idealism and altruism of a hundred million people. What is the Cross? Two sticks set at right angles? Yes, plus the glory of sacrifice." In closing the speaker urged upon all the duty of seeing the realities of the spirit that lie behind the facts and to find that "the fear of the Lord is the beginning of wisdom, and to depart from evil is understanding."

Dr. Eliot gave of his time gladly to come to Durham for he considers the work here of a unique nature. Durham Church has no honorarium to bestow upon these eminent men. They come because they are interested in the work of Durham Church. It is hoped that sometime during the college year Bishop Hughes of the Methodist Episcopal church will visit the college and preach in the Durham Church.

NON-SORORITY WOMEN ELECT STUDENT COUNCIL MEMBERS.

On Friday afternoon at four o'clock there was a meeting of the non-sorority girls to elect their representatives to the Student Council. Those elected are as follows: Kathryn Aldrich, '21; Hazel Ayers, '21; Ruth Colburn, '21; Fannie Spinney, '22; Mildred Gilmore, '22.

Dean A. N. French will go to Newport on November 12 to speak before the Women's Club of Newport on the subject of "Our Profound Faith in Education."

PROF. G. F. PORTER SPEAKS TO "AGGIES"

"The Fruiting Habit of the Apple" Discussed by Members of Horticultural Department—Club to Banquet on October 29

The last meeting of the Agricultural Club was held Monday, October 25, at the Club room with Professor George F. Porter of the Horticultural Department as speaker of the evening. Prof. Porter spoke on a very interesting topic, "The Fruiting Habit of the Apple."

In New England, this year, there is a shortage of apples while in New York and states further west, there is an unusually large crop. This means a low price here even with low production. Such conditions as this, which have occurred before, have led to the investigation of the cause of the apparent biennial production of fruit. Mr. E. J. Crouch of Wisconsin and Professor H. R. Craybill of this college recently made an intensive study of this problem with the ultimate conclusion that pruning is the greatest and most economical factor in controlling fruit formation.

PRUNING REGULATES

Pruning regulates the ratio of nitrates with carbohydrates, in the tree and this in turn influences fruit production. The average growth of the fruit spurs on the tree should be three-quarters of an inch to induce a tree to bear each year rather than every other year. This is an important factor in regulating the production of apples and will be of great advantage to the fruit growers.

DAVIS REPORTS

Master of Program Davis gave an interesting account of the trip of the Dairy Judging Team which went to the National Dairy Show at Chicago. From his short speech one could surely see that this trip is one to be valued. "Jack Johnson also gave a short talk on the plans of furthering the judging teams urging more competition for positions on the teams. This year the team secured fourteenth place among twenty-one teams.

Upon Prof. Fuller's suggestion a committee of three was elected to investigate the possibilities of gaining financial support for the Fat Stock Judging Team which expects to compete at the International Livestock Show at Chicago. This committee consists of Lewellyn Boutwell, R. N. Johnson and Leon C. Glover.

FELKER TO SPEAK SOON

All plans for the best Agricultural banquet yet held here are running smoothly and on the evening of October 29 the Aggie men will have the chance to listen to the best agricultural speakers to be obtained, namely: John A. Shirley, Manager of the Eastern States League; George A. Putnam, President of the New Hampshire Farm Bureau Federation and Andrew L. Felker, Commissioner of Agriculture of New Hampshire.

FARM BUREAU MEETING HELD AT CONCORD

Executive Committee of American Federation Listens to Report on Freight Rates—Many Dollars Saved by Organized Effort to Revise Schedules

The annual meeting of the executive committee of the state branch of the American Farm Bureau Federation was held at Concord Friday the twenty-second. Mr. W. C. Cornwall of the executive committee of the national organization was the principal speaker. He spoke briefly on some of the lines of activity of the American Federation of Farm Bureaus, and called especial attention to the success of the organization in its efforts to modify the proposed freight schedules when this matter was being considered before the Interstate Commerce Commission.

Mr. Clifford Thorne, one of the foremost authorities, if not the foremost authority in the country on railroad valuations and rates, represented the federation on this case and was successful in getting schedules adopted that mean a saving of close to one hundred million dollars annually for the American people, in freight rates alone. And inasmuch as more than fifty per cent. of the cost of transportation in the United States is paid by agricultural interests, the adoption of lower freight rates means a

saving of fifty million dollars per year to the farmers of America. LAKE ROUTES TO OPERATE

The American Farm Bureau Federation also contended vigorously for readjustment of the railroad rates between Chicago and the Atlantic ports so that the use of boats on the Great Lakes for the transportation of grain would be encouraged. There has been in effect a rate whereby the railroads carried grain from Chicago to Buffalo for less than 4c per bushel, while they charged 10c from Buffalo to New York, although the distance from Chicago to Buffalo is much greater than the mileage from Buffalo to the coast. This inequality in rates was a means employed by the railroads to prevent competition by lake carriers. Consequently although the railroads were unable to handle all of their legitimate freight, the lake boats were lying idle at their docks simply because they could not operate in competition with this unfair rate. The change in schedule should make it possible for the barges to handle enough grain to make cars available for necessary over-land hauling, and incidentally reduce the cost of handling the grain by about 3c per bushel.

A "committee of 17" has been appointed by the American Farm Bureau Federation to make a study of grain marketing problems. This committee is composed of prominent economists, business men, and widely known farmers, and their studies should be of great value to the country at large, as well as to the farmers of the grain belt.

HOME ECONOMICS CLUB.

A short meeting of the Home Economics Club was held Thursday afternoon at four o'clock in the Home Economics room. At this meeting Mrs. Helen McLaughlin was elected faculty advisor and Miss Margaret Cleveland was elected vice-president, to fill the vacancy left by the resignation of Miss Marguerite Marden. Miss Cleveland is also chairman of the program committee.

It was announced that the next meeting will be held in two weeks when Miss Greene and Mrs. McLaughlin, who have been attending conventions this week, will have something of interest to tell the girls.

BOOK AND SCROLL PLEDGES FOURTEEN COLLEGE WOMEN

Book and Scroll recently announced the pledging of the following girls, Thursday noon, October 21: Delia Langley, '21; Gladys Bean, '22; Decima Doyle, '22; Dorothy Flanders, '21; Louise Harding, '22; Ruth Colburn, '21; Fannie Spinney, '22; Morelle Connell, '21; Louise Davis, '21; Louise Burdett, '21; Florence Hatch, '21; Katherine Thompson, '22; Hope Stevens, '22; Marian Boothman, '22.

SENIOR WOMEN INSTRUCT YOUNGER WOMEN IN ATHLETICS.

The senior women, who are taking "gym" this year, had an opportunity last week to prove their ability to the under-class women. During the absence of Miss Bartlett, who has been attending a wedding in Springfield, Mass., at which she acted as bridesmaid, they had entire charge of all the physical education classes. Their interest in soccer and hockey is keen, and since some are preparing to teach physical education, they are given many opportunities for practice teaching. The class consists of the following senior women: Dorothy Flanders, Edith Morrill, Katherine Aldrich, Dorothy Chase, Louise Burdett, Irene Bourdon, Rachel Bugbee and Mary Gerrish.

COLLEGE WOODS TO BE DEVELOPED AND IMPROVED.

In order to make it possible for the college woods to be used more than they have in the past, President Hetzel has approved a policy which it is hoped will lead to their fuller enjoyment. The employment of a special warden has been approved so that the paths are to be kept clean and new ones opened up. Springs will also be developed as far as possible. Eventually a fire place where open-air cooking can be done safely is to be built. Rustic shelters may also be constructed if funds permit.

When parties wish to hold meetings in the woods application should be made to the Forestry Department or to R. S. Weldon, '21.

There's Just One 100% Efficient CREAM SEPARATOR And That's The **DE LAVAL** For Forty Years The World's Standard

There may be a half-dozen plows, wagons, tractors, autos or other farm equipment to choose between, but no would-be imitator or utilizer of expired De Laval patents has yet produced a cream separator comparable with the De Laval.

First in the beginning, De Laval machines have led in every step of cream separator improvement and development. Every year has presented some new feature or betterment, and the 1920 machines are still better than they have ever been before.

If you haven't seen or tried a new 1920 De Laval machine, any local agent will be glad to afford you the opportunity to do so.

If you don't know the nearest De Laval local agent simply address the nearest main office, as below.

ALUMNI NOTES

E. H. Burroughs, '10, is now with the Amburson Construction Co. of Atlanta, Ga. Mr. Burroughs' business address is 301 Walton Building, Atlanta, Ga.

Edgar F. Bickford, '03, is distribution engineer for the Eastern Mass. Street Railway Co. with an office at 1 Beacon Street, Boston, Mass. His home address is 82 Monument St., West Medford, Mass.

F. H. Blodgett, ex-'19, who graduated from West Point last year, is at Camp Benning, Ga. He is taking a graduate course in the Infantry Officers' School.

R. E. Shum, ex-'20, is also at this Southern camp, according to a letter from A. E. McKenney, '21, who is situated there.

Goldie Basch, '17, visited the campus over the week-end.

Amber P. Arexey, '21, is doing greenhouse work in Milford, Mass.

Word has been received of the marriage of Leonard P. Philbrick, '17, to Florence L. Dudley, '16, on October 23, at Union, N. H.

Naomi M. Ekdahl, ex-'23, is enjoying her work at Syracuse University. Mrs. Ekdahl's address is 1010 Ackerman Ave., Syracuse, N. Y.

Arthur R. Morgan, '17, was recently married to Helen A. Conn at Hartley, Ia.

Forrest Barker, '20, is doing research work at the American University in Washington, D. C. At present he is confining his work to the Fixed Nitrogen Laboratory.

Myrtle Johnson, '17, who has been doing government work for some time and who recently changed her headquarters from Washington to Boston, is now at St. Joseph's Hospital in Nashua recuperating from an operation.

"Ducker" Davis, '20, who has been coaching at Thornton Academy nearly a year, spent the week-end in Durham.

Frank Blodgett, ex-'19, West Point, '20, is at Camp Benning, Ga. Raymond S. Shum, ex-'20, is also attending the school for Infantry Officers. Lieut. Alfred E. McKenney, ex-'21, is at Camp Benning, Ga., attending the Infantry Officers' school.

R. W. Kimball, ex-'21, is with the Riorion Company of Canada, one of the largest pulp and paper concerns in North America. He is employed in the chlorine making bleach plant under the supervision of Mr. Nelson, the inventor of the "Nelson Cell" for making chlorine gas.

F. E. Patterson, '20, is at the Harvard Graduate School of Business, Cambridge. His address is 14 Summer Road, Cambridge (38) Mass. In a letter to the New Hampshire Patriot expressed great enthusiasm over the Harvard system.

ANNOUNCEMENT.

Miss Florence Hatch, '21, of Exeter has announced her engagement to Gordon T. Nightingale, '19.

STRAW VOTE FAVORS HARDING TWO TO ONE

Women Vote for Republican Candidate Three to One—Faculty Also Favor Change in Administration —Debs Gets Three Votes

The straw vote conducted last Wednesday by "The New Hampshire" gave Harding and Coolidge a margin of more than two to one in the total votes cast. Debs, the socialist candidate, received three votes while Hoover was given one.

The balloting, which lasted all day, was conducted on the steps of Thompson Hall and revealed an overwhelming sentiment for the Republican standard bearers. Bulletin boards which shouted Cox on the one hand and Harding on the other, stood by the doorway and attracted much attention. The Democratic Club of the college led off by posting their board early in the morning and featured their advertising by a long list of twenty names of persons who were members of the faculty who favored the election of Cox and Roosevelt. Later in the day the Republican literature and advertising appeared and the interest in the two major league candidates was at times keen.

INTEREST STIMULATED
Interest in the election was no doubt stimulated and many times arguments were started which reminded one of former campaigns when the issues and the candidates incited discussion on every street corner. Before the straw vote of last Wednesday interest in the election was at a very low ebb in the college but it has grown considerably since the first announcement of the New Hampshire that a straw vote would be taken. The interest aroused resulted in the formation of Republican and Democratic clubs and in the holding of rallies by both organizations.

The women seemed to favor Harding to Cox as the student women contrary to expectations voted for Harding three to one. The faculty said to be emphatically for Cox voted two to one for Harding while the men lined according to anticipation and favored Harding slightly more than two to one.

The vote as tabulated follows:
Harding Cox Debs Hoover
STUDENTS
Men, 264 101 3 1
Women 93 31
FACULTY, 36 15
Total, 393 147 3 1

TEACHERS' ASS'N IN 67TH SESSION

New Hampshire
"Grads" and Faculty
Members Present

RABBI WISE CHIEF SPEAKER

Criticism and Praise of State Methods Are Heard at Laconia Meeting—College Attendants Form Permanent Club

The sixty-seventh annual meeting of the New Hampshire State Teachers' Association was held at Laconia October 21 and 22 and was largely attended by school men, including many of the regular teachers of high schools, grade and rural schools. The general sessions were held in the Colonial Theatre which made an admirable meeting place except that it was scarcely large enough to accommodate the large crowd in attendance.

On Thursday evening, October 21st, the Women Teachers' Club held a banquet in the Armory and the Schoolmasters' Club had its annual banquet in the dining room of the Laconia Tavern. Both of these meetings were decidedly successful. The spirit of good fellowship reigned supreme and the speakers who addressed the audiences were very clever, entertaining and instructive.

"MOVIES" SCORED

The entire program was of such general excellence that it is difficult to indicate what the high spots were. However, it would seem that the address by Rabbi Stephen Wise of the Jewish Tabernacle, New York City, was probably the most vital and of the greatest interest. The repeated applause given in recognition of the wit and sound philosophy of this forceful speaker indicated that the audience was indeed very much pleased with his address. He advocated American ideals and idealism and criticized the influence of some institutions because they leave decidedly wrong impressions upon the new immigrants who come to this country. The theatre and the moving picture house, as it is, come in for most severe criticism. However, as they should be and could be the Rabbi felt they would be one of our most important Americanizing influences.

DR. WINSHIP AT HIS BEST

Two of the chief speakers found it impossible to attend the meeting. Mrs. Harvey, who has achieved the national reputation because of her splendid work in the one room rural school, known as the Porter School at Kirksville, Missouri, was unable to be present but in her stead the management was able to secure Dr. A. E. Winship, educator, author and traveler. Mr. Winship spoke at considerable length on the subject of "What is the matter with New England," in which he pointed out that the chief difficulty with New England educationally, as well as in other ways, is that she worships the perfect or perfected and has not enough time for the new, that she is trailing progress rather than leading it. He was given splendid attention and it appeared that the audience appreciated him even though he seemed to criticize New Hampshire's educational programs.

Mr. Hugh S. MacGill, Field Secretary of the N. E. A., spoke at length upon the work of the association and gave a considerable portion of his time to work done in behalf of the Smith-Towner bill which is to provide federal aid for public education to the extent of \$100,000,000 and to distribute this aid in proportion to the population and in relation to the educational needs of the various states of the union.

MR. PAINE SPEAKS

Hon. R. D. Paine of Durham, who is a member of the State Board of Education, was, as always, given a most hearty and cordial reception and great interest was shown in his address in which he set forth the policies and plans of the State Board, both for the present and the future. The association gave a most cordial welcome to Dr. Clifton Gray, the newly appointed President of Bates College, in which he made an eloquent and forceful appeal on "The place of the college today." President Gray, of course, is unusually interested in the educational affairs of this state because of the large number of Bates alumni, who are either teaching or are in supervisory work in New Hampshire. The State recognizes that many of its best educators have come from that institution and consequently were very glad indeed to welcome President Gray in this manner. The Hon. Calvin Kendall, Commissioner of Education of New Jersey and President of the Department of Superintendence of the N. E. A., was unable to be present because of illness. In his place the management was fortunate in being able to have Dr. Chapin, President of the Normal School of New Jersey, who spoke on American Ideals in Education thereby re-enforcing very greatly the address of Rabbi Stephen Wise.

The entire educational tone of the meeting was very high indeed and all people attending seemed to be very much interested in the addresses. **SUMMER SCHOOL PLANNED**
The Section Meetings were more vital this year than they have often been in the past. The English Section considered many problems which are met by teachers of English almost every day in their school room. They also voted in favor of having a summer school, providing for professional training, to be held at Dart-

mouth and New Hampshire College in alternate years. In the Practical Arts Club it was found desirable to revive the Home Economics section. This was initiated by asking Miss Greene to be temporary chairman of the meeting but before closing Miss Pillsbury, head of the Home Economics work in the schools of Nashua was elected President of the Home Economics Section for the ensuing year and Mrs. McLaughlin of the Home Economics Department of New Hampshire College was chosen a member of the program committee. It is planned that two meetings of the Home Economics Association shall be held during the present year and that the first one is to be held at Concord in the very near future. A large number of New Hampshire alumni, who are teaching Home Economics in the schools of the State were present at this meeting.

ALUMNI ORGANIZE

On Friday the Plymouth and Keene Normal schools each held an alumni luncheon. The attendance at these meetings was very large indeed. On Friday Dartmouth alumni held an alumni luncheon in one of the churches and on this same day the alumni of New Hampshire College held an alumni luncheon meeting in the dining room of the Laconia Tavern. Mr. John R. Thompson, '15, presided and about thirty dined together at that time. The success of the meeting and the fact that New Hampshire teachers had an alumni meeting at all was due in large part to the efforts of Elsie King, '18, who is at the present time teaching Home Economics in the Stevens' High School at Claremont. Short addresses were given by J. O. Nelson, Harold Felker, Elsie King, Miss Greene, Dean French and Professor Summers. A permanent organization has been perfected with the following officers: John R. Thompson, President; Elsie King, Vice President; Ruth McQuesten, Secretary-Treasurer. The meeting was a decided success and the best of fellowship and good spirit prevailed. This alumni meeting is probably the best that has ever been held in connection with the State Teachers' Association and the writer predicts that such meetings mean much for the college in the future.

Great credit for the success of the entire program of the State Teachers' Association is due to the Laconia Teachers' Association, John S. Gilman, Superintendent of Schools in Laconia, the Laconia Chamber of Commerce and to the entire force of the State Department of Education. Exceptional credit however, is due to Mr. Walter M. May, Deputy Commissioner of Education, who was this year President of the State Teachers' Association and to the interested and enthusiastic body of teachers in attendance.

OREGON'S PRESIDENT VISITS DR. HETZEL

Surveys New Hampshire College Plant—Expresses Views on Future of Land Grant Institutions Attends Dinner Party

Dr. W. J. Kerr, president of the Oregon Agricultural college, visited Durham as a guest of President R. D. Hetzel Saturday afternoon. Dr. Kerr and President Hetzel were both in attendance at the meeting of the Land Grant College Association held at Springfield. Dr. Kerr was associated with President Hetzel for nine years at the Oregon Agricultural College and he took this opportunity to renew acquaintance.

Saturday afternoon Dr. Kerr went over the college plant, in quite a complete survey, with President Hetzel. They discussed future plans for this college and other colleges of like character. Dr. Kerr expressed himself as being greatly pleased with the present status of the college and that he considered the program for New Hampshire for the future to be very progressive. He felt that the policies were very soundly outlined. Dr. Kerr said that our college compared favorably with other Land Grant colleges of the same class.

During his stay here Dr. Kerr attended the supper given by the Durham Church Authorities in honor of Dr. Eliot and Dr. Kerr. Dr. Kerr said that to him the village and surrounding country were very beautiful in a typical New England way. Dr. Kerr spent Saturday night at the home of President Hetzel, starting for the west Sunday morning. Dr. Kerr's short visit was very much enjoyed by Mr. and Mrs. Hetzel.

MISS IRMA BOWEN TO JOIN HOME ECONOMICS STAFF

A difficult situation in the home economics department of New Hampshire college will be relieved by the arrival of Miss Irma Bowen of Rochester, New York, who is expected to join the teaching staff Wednesday, November 3. Because of the lack of instructors, all classes thus far have been handled by Miss Isa A. Greene, head of the department, and her assistant, Mrs. Helen F. McLaughlin, recently transferred from the state extension service. Classes in home economics had to be suspended during the absence of both women Friday to attend conventions at Springfield, Mass., and Laconia, N. H.

Miss Bowen, who is a trained teacher in clothing, comes with the best credentials from Teachers' College, Columbia University, and was expected to arrive November 1, but a telegram received Monday, October 25, indicates that she will arrive Wednesday.

FRATERNITIES PLEDGE MEN

Rushing Closed by Casque and Casket on Wednesday

66 FRESHMEN BID

Old Customs Are Followed in Bidding of Popular Freshmen—Interfraternity Council Presides Over Pledging Ceremonies

The fraternity rushing season which has been in full swing since the opening of college, came to a close last Tuesday night when, according to the long followed tradition, Casque and Casket met for the classification of bids. It was found that but 66 freshmen were bid by the six national fraternities on the campus, and the bids were mailed to the various freshmen on Wednesday morning. In the late afternoon the Interfraternity Council again met and the freshmen were notified of the fraternity who had invited them to become members. Freshmen were asked to make known their choice by depositing in a ballot box a pledge card upon which was written the name of the particular person in question and the fraternity to which he gave his pledge to join.

Upon counting the bids it was found that 65 of the 66 freshmen had accepted their invitations to join fraternities and pledged themselves as follows:

The Church in Durham

REV. VAUGHAN DABNEY, PASTOR

ALUMNI, ATTENTION!

Durham Church never forgets the alumni of New Hampshire College and follows with keen interest their success after graduation. The splendid column of Alumni Notes in the New Hampshire enables us to keep in touch with the old grads. We rejoice in your success. And we hope that the old New Hampshire spirit and the spirit of the old Durham Church will through you be carried to the ends of the earth. Good luck to you all!

DAIRY JUDGING TEAM RETURNS

Had Competed at National
Dairy Shows at Chicago

PLACED FOURTEENTH

Massachusetts and Connecticut Only
New England Teams to Place Ahead
of New Hampshire—Team Paid
Own Expenses—Were Coached
by Prof. Fuller

The New Hampshire College Dairy Judging team recently returned from their trip to the National Dairy Show at Chicago, where they won fourteenth place in competition with twenty-one other college judging teams. The National Dairy show was held between October 7 and 16, featuring exhibitions of dairy stock and all modern dairy implements. Large numbers of dairymen were attracted from all over the United States and the best agricultural colleges of the country were represented in this competition.

The judging team consisted of R. N. Johnson, B. M. Davis and Lewellyn Boutwell. These members were coached by Professor Fuller of the Dairy department, who accompanied them to Chicago. Even though the team was sent under the auspices of the Dairy Department, they met their own expenses in helping to furnish publicity for the college by out-judging teams from several prominent agricultural colleges.

The teams placed respectively in the order in which they are given below.

Kansas State College
University of Kentucky
Purdue University
Pennsylvania State College
University of Missouri
University of Tennessee
University of Maryland
Massachusetts Agricultural College
University of Wisconsin
Washington State College
Connecticut Agricultural College
South Dakota Agricultural College
New Hampshire State Agricultural College
Clemson Agricultural College
New Jersey Agricultural College
University of Minnesota
Cornell University
University of Nebraska
North Carolina State College
Ohio State College.

MISSION WORKER TALKS TO Y. W. C. A.

C. L. Ferguson from Fields in South-
ern India Addresses Women's So-
ciety—Tells of Conditions in
Orient

C. L. Ferguson, a worker in the mission fields of southern India for the last twenty-five years, was the speaker at the Y. W. C. A. meeting held in Smith Hall Monday evening, October 25. The substance of Mr. Ferguson's address follows: "There are two forces operating today—God and man. The world is being contested between might and right. We who go out from America today are up against lawlessness and disorder, due to conditions after the war. The eastern countries, China, Japan and India sent many men to the war, either to fight or work back of the trenches.

POPULATION INCREASES

I am going to speak of India in particular for we haven't time to take up all the eastern countries. When I went to India twenty-five years ago there was a population of 270,000,000 people. Tonight there are 340,000,000 and the population is growing at the rate of 8,000 a day or 3,000,000 a year. But the agricultural resources are not increasing in proportion. The land has been subdivided until now, men have as little as a quarter of an acre each, to cultivate.

One of India's problems is the food problem. It has been coming on for a number of years but the war brought the climax. Grains were selling when I left at double famine prices. Cotton cloth has gone up higher than it sold for here during the war, though India is the greatest cotton producing country in the world. The clothing problem is also very serious.

NEED BUILDING

The next problem is, Where shall we live? In America about 1,000,000 couples marry every year while 40,000 houses are built for them. In India the population is increasing at the rate of 3,000,000 per year while building has practically ceased.

There are two Indias: first, the fine India of which we do not hear much; and second, the old India which has gone right on through civilization with her ideals untouched. The great agricultural and industrial India leads the world in the amounts of tea, cane sugar, rice and jute produced also in the number of cattle raised.

In the other India the peasantry make up 87 per cent. of the population. They live in villages, in poorly furnished mud huts. The people are extremely poor and there are few wealthy land owners. The women of India have long been suppressed but new things are coming to them. The cultured women aspire to four things: first, betterment in education; second, betterment in social position; third, greater political influence and fourth, betterment in religion.

INDIA PROGRESSING

India is going to have a new day socially. An illustration of the way

in which all nationalities and classes are breaking down barriers and meeting on a common level was shown at a party which the governor of Madras gave to the gentry and civilians of the city. Mohammedans, Hindoos, English, Americans and Europeans were present, all attired in modern style and quite at ease.

Missionaries have led the way in "female education" though it has been a difficult task because the women have been looked on as chattels. A Hindu coming to America made this statement: "Hinduism and Mohammedanism provide women with husbands—what has Christianity done for the old maids of New England?" One of them replied, "It has given us the chance to be old maids if we want to." In the past twenty-five years the education of women has passed through three stages—grade schools and high schools have been founded, and finally a college has been established in Madras. One of the great doors open to women in India is medicine. I have had the great privilege of establishing a college of medicine in Madras.

WOMEN ADVANCING

Women are advancing politically, by becoming responsible for management of schools. India is after prohibition, following America's example. Upholding prohibition in this country will have a great influence on India.

Missionaries have been working for years among the people of India. Many "Bible women" have explained the meaning of the Bible to the natives, taught them to pray and to sing lyrics in their own language. Thousands of the women in India are waiting to break their trammels and become free, on an equal level with the men.

All of you have got to decide sometime, some where, what you are going to be. It is a high privilege to be a missionary and when you come to consider the things necessary in life's measure, I hope you'll put in a missionary as one of them. Ask yourself if you haven't an obligation to the world. There is a place for everyone who has any ability or talent to do good for others.

DINNER PARTY IS GIVEN TO DISTINGUISHED GUESTS.

A dinner was given in honor of Dr. Samuel A. Eliot, D. D. of Boston and President William J. Kerr of Oregon State College by a group of men representing the Durham church and New Hampshire college at the Commons last Saturday evening.

Following the dinner, which was served in the President's dining room, Dr. Eliot entertained those present by relating some of his experiences during a recent visit to Europe. He emphasized the disagreement of the countries abroad. At a dinner which he attended, where all of the leading countries were represented he said the only thing to which all of the countries would agree was that things were in a bad condition. Some country disagreed with every measure suggested. After Dr. Eliot had answered numerous questions, President Kerr gave an account of the struggle for adequate support of the state college in Oregon.

The Reverend Vaughan Dabney was in charge of the party. Others present were: President R. D. Hetzel, Dean C. H. Pettee, Dean C. H. Crouch and Dean A. M. French of New Hampshire College, Captain Lynde Sullivan, J. S. Chamberlain, J. C. Kendall and R. D. Paine representing the Durham Church.

LOCAL Y. M. C. A. BECOMES AGENT OF UNITED SCHOOLS.

Mr. Nodine, a representative of the United Y. M. C. A. Schools visited the campus last week and in addition to meeting three men and helping them make applications for scholarships in the Educational Service Fund conferred with the local Y. M. C. A. and as a result the co-operative plan was adopted. Through this plan the Association will act as the agent of the schools in the promotion and enrollment of students in the correspondence, or home study courses, given by the Extension Division of the United Y. M. C. A. schools, and in such local contracts with enrolled students as may be necessary or desirable during the progress of their studies.

HUGH M. HUGGINS, '23 IS CHURCH ORGANIST.

Mr. Hugh M. Huggins, '23, has been made organist and choir master of the Durham church. The choir has recently been reorganized and enlarged with members from the two Glee Clubs.

The titles of organ compositions will be indicated on the church programme to help stimulate interest in musical works, also in original compositions. The organist invites all those who so desire, to hand in requests for special numbers.

GRANGE HALL DANCE WELL ATTENDED.

A dance was held Friday evening, October 22, in the Grange hall by the "Five Jazz Kings" orchestra composed of Irving Doolittle, piano; Edgar Ross, violin; William Batchelder, banjo; Dean Avery, drums; Richard Lowry, saxophone.

Since no informal was scheduled for this week, the co-eds were allowed to attend, consequently the hall was filled to its capacity. There were approximately thirty-five couples. Dancing was from 8 o'clock until 11 o'clock.

TILTON SEMINARY TOO STRONG FOR '24

"Prep" School Eleven Defeats Fresh-
men by Score of 14-6—Hardy and
Gardner Star for Yearlings
—Final Tally Made in Last
Minute of Play

The freshmen were forced to take their third straight defeat of the season at the hands of the strong Tilton Seminary team last Saturday, at Tilton, by a score of 14 to 6. The Freshmen were not beaten as decisively as the score might indicate, for it was only the few breaks which seemed to go the other way which spelled their downfall. The freshmen were outweighed and were also outplayed by the up-state eleven.

TILTON SCORES

New Hampshire kicked off to Tilton and Atkinson was downed in his tracks. The Freshmen held for downs and the Seminary team was forced to punt. The punt rolled over the goal line and was given to the freshmen on their twenty-yard line. Two end runs failed to gain ground and Hardy was forced to punt. The Tilton team kept hammering away at the New Hampshire line and had the ball on the freshman four-yard line, when the first quarter ended. The freshman line braced up and held for three downs, but the heavier Tilton backs pushed the pigskin across for the score and kicked the goal. Score: N. H., 0; Tilton, 7.

The freshmen began to show their strength after the next kickoff and before five minutes more of the time had passed away had pushed across a score, Captain Hardy going across for the touchdown. Hardy failed to kick the goal and the score stood, N. H., 6; Tilton, 7.

The ball seasawed back and forth for the final minutes of play and when the half ended it was in Tilton's possession on their own thirty-yard line.

FRESHMEN RALLY

In the second half the freshmen came back strong and by a series of forward passes carried the ball to the Tilton four-yard line. Another pass was tried which was grounded behind the line and a chance for a New Hampshire victory was thrown away. Tilton failed to make any impression in the last half and the freshmen fumbled repeatedly. The freshmen showed a wonderful strength in a forward pass offensive in the final period but did not display the punch to put the final touches on the afternoon.

In the final minute of play, Arnold intercepted a New Hampshire pass for Tilton and traveled the remaining fifty-yards for the final score of the game. The goal was kicked and the score stood, N. H., 6; Tilton, 14. After the kickoff the whistle blew and the freshmen had gone down to defeat a third time.

The Tilton team outmarched the freshmen in aggressiveness and in the fundamentals of the game. It was the few minor slips which the freshmen made that accounted for their defeat.

Capt. Hardy, Gardner and Conrad played the best game for the yearlings, while Uehlien and Atkinson showed up well for the winners.

The summary:		Tilton

ARTS AND SCIENCE NOTICES.

All who have deferred marks or are delinquent in any economic subjects should report to Professor H. W. Smith immediately, looking forward to making up the examinations and removing the delinquency.

COMMONS PIANO IS TO BE RENTED UPON APPLICATION.

Girls living at the Commons Dormitory announce that their recently installed piano is out for rent to any organization desiring it. The college does not furnish the Commons dormitory with a piano, and as the present piano has been rented by an association of the twenty-two girls living here, they are anxious to defray part of the expense incurred and thus decrease each member's piano tax by renting the instrument.
